### JEFFRIES MOST POWERFUL MAN

No Man Can Conquer Him, Is the Judgment of an Expert.

London, Oct. 1.—Jim Jeffries, undefeated champion of champions, is ready to battle Jack Johnson, holder of the heavy weight pugilistic title. The California prize is on his way home from Cebu, where he has been taking the waters, as they call it, which in plain English means, he has been taking off fat and getting his vital organs in condition to stand the rigor of training.

He has announced his intention to start active training shortly after returning to this country. Jeffries has been examined by medical men and physical culture experts and has been pronounced in perfect health.

"Prof. Gilman Low, the so-called 'Modern Hercules,' who is an anatomist of reason, declares no living man can conquer Jeffries, the most wonderful human specimen he ever inspected.

Jeffries has greater length, in proportion, from his shoulders to his elbows, from his hips to his knees and from his ankles to his toes than most men of his weight and height. Low says: 'These are three apical motive stations of the human body. Speed is subject to the ratio which the length of these three bodily sections bears to the length of the lower measurements, namely: From the elbows to the wrists and from the knees to the ankles. In other words, Jeffries has greater length from his hips to his knees than from his knees to his ankles.

The second reason is the size and solidity of his muscles, not, however, forgetting their flexibility. Their qualities might be summed up as follows:

Solidity and mobility, resulting in activity, and supple bearing or carriage, and this backed by phenomenal strength. Lastly: Jeffries' upper arm is one inch longer than Johnson's, which gives a far greater ratio of speed. Also the breadth of his shoulders, compared with Johnson's, gives him greater power, especially when reimbursed by the depth of the chest, as is Jeffries. It also affords quicker and more expansive action of the lungs, as the greater number of air cells are nearer to the place where the oxygen enters.

### BULGER SELECTS ALL AMERICAN TEAM

Picks Mathewson as the Star Pitcher for the First Nine.

New York, Oct. 1.—Bozeman Bulger, the sporting editor of the World, has made his selection for an all-American baseball team for western readers. His selection and comments follow:

Before the critical fans begin the work of dissecting this choice of the all-American team for 1909 they should at least be kind enough to look up the batting averages of the various players chosen. For instance, it is quite likely that a broadside will be fired at the choice for second base. Ninety per cent of the fans would choose Lajoie, while a large number would stick to Evers of the Cubs and Boile of the Giants. The records show, however, that Collins has outlived them all and that he is crowding Ty Cobb for the honor of leading the league.

The choice of Gibson as catcher is based on the fact that he has caught practically every game played by the Pirates and that his throwing arm has been unerring. There are other catchers who have hit harder than Gibson, but he is a dangerous man in a pinch.

As to the others there can be little question. For a fielding outfielder I would have preferred to name Lynch, but Crawford is outbidding them all with the exception of Ty Cobb. Considerably more difficulty is found in selecting the second team than the first. The fact that Bridwell was selected for shortstop will probably be a surprise. Fans throughout the country look upon him as a left fielder, but they see that he also is a cracking good hitter. In batting, Bridwell is ahead of all other shortstops except Wagner. Many would have chosen Tinker of the Cubs, but his batting percentage is nearly 30 points less than that of Bridwell.

A sharp criticism over the selection of Hummel, Birmingham and Mitchell is also expected. The fans had better examine the records closely, however. By averaging the batting average, the fielding average and the throwing ability of those three men they will be found far in the lead of all others.

These are my selections: All-American Baseball Team—First base, Chase, New York Americans. Second base, Collins, Athletics. Shortstop, Wagner, Pittsburgh. Third base, Clarke, New York National. Left field, Clarke, Pittsburgh. Center field, Crawford, Detroit Americans. Right field, Cobb, Detroit. Catcher, Gibson, Pittsburgh. Pitcher, Mathewson, New York Nationals.

All-American Team, Second Choice—First base, Chance, Chicago National. Second base, Lajoie, Cleveland. Shortstop, Bridwell, New York Nationals. Third base, Steinfeldt, Chicago Nationals. Left field, Hummel, Brooklyn. Center field, Birmingham, Cleveland. Right field, Mitchell, Cincinnati. Catcher, Archer, Chicago National. Pitcher, Krause, Athletics.

Philadelphia, Sept. 30.—Detroit, although defeated by Boston, won the American league baseball pennant for the third time today by virtue of Philadelphia's double defeat at the hands of Chicago. Philadelphia had a faint hope of winning the flag by Detroit losing all its remaining games and the home team taking all it had to play, but the two defeats made it impossible for Philadelphia to either win or tie the champions.

### H. L. GRIFFIN CO. SUES RAILROAD COMPANY

The H. L. Griffin Co., has filed suit against the Oregon Short Line Railroad Co., for the recovery of \$525 which is claimed to be the sum lost by the Griffin Co. due to the carelessness and indifference of the railroad company in transporting fruit from here to the east.

The fruit was originally consigned to Kansas City, Mo. After it had arrived at that place it was shipped to New York City. Between Kansas City and New York the fruit was delayed and allowed to rot and the board of health of New York city dumped the goods into the gutter.

In the car there were 1660 cases of peaches and 55 cases of pears. The Griffin company has asked that they be given judgment for \$325.53, with interest at eight per cent from September 1.

## S.S.S. PURELY VEGETABLE

The absolute vegetable purity of S.S.S. has always been one of the strongest points in its favor, and is one of the principal reasons why it is the most widely known and universally used of all blood medicines. A great many of the so-called blood purifiers are really nothing more than strong mineral mixtures which act so unpleasantly and dangerously on the delicate membranes and tissues of the stomach and bowels, that even if such treatment purified the blood, the condition in which the digestive system is left would often be more damaging to the health than the original trouble. Not so with S.S.S.—it is the greatest of all blood purifiers, and at the same time is an absolutely safe and harmless remedy. It is made entirely of the healing and cleansing extracts and juices of roots, herbs and berries, each of which is in daily use in some form by physicians in their practice. Years of work and research have proven S.S.S. to contain everything necessary to purify the blood and at the same time supply the system with the purest and best tonic effects. S.S.S. cures Rheumatism, Catarrh, Scrofula, Skin Diseases, Scrofula, Contagious Blood Poison and all other blood troubles, and it leaves the system in perfect condition when it has purified the blood. Book containing much valuable information on the blood and any medical advice desired sent free to all who write.
